Light Engine Collides With Central New England Work Train.

Winsted, Dec. 9-One man was seriously injured, two more were slightly hurt, and three others had miraculous escapes from death about 6:35 o'clock last night, when an engine running light, and traveling at a high rate of speed, crashed into the rear end of a work train, near the bridge across John street, in the West Win-sted yards of the Central New England railroad. The injured are as follows: J. E. Trowbridge, Buffalo, N. Y., right leg badly crushed, amputation necessary; Michael McMa-honey, Winsted, injured about head; Frank Morrissey, engineer, Canaan arm sprained. The men, with the exception of Morrissey, were in the rear coach of the work train, which was telescoped. Three cars are badly wrecked and it will probably be midnight before the track is cleared. The work train, in charge of Conductor N. W. Blodgett of New Canaan, had fust returned from Millerton and was headed into the Winsted yards to spend the night, when the engine which was on the way to Simsbury to assist in the pulling of one of the night freights up the grade to Canaan rounded the bend, running at a high rate of speed. The engine was in charge of Engineer Frank Morrissey of Canaan, and Fireman E. J. Foley of East Canaan, both of whom jumped from the cab when they saw that a collision was inevitable. Trowbridge was returning to Winsted from Meri-den and was about to jump from the forward platform of the rear coach of the work train, when the collision occurred. He was pinned beneath the wreckage, and remained a prisoner for over half an hour, finally re-leasing himself by sawing away some of the timbers which held him, with a saw furnished him by rescuers. He was removed to the Litchfield Coun-ty Hospital in this place, where it was found that it will be necessary to amputate his leg. The responsi-bility for the wreck has not been fix-

#### NEWTOWN.
